FROM THE CASE FILES OF WILDBASE HOSPITAL COME THE FASCINATING STORIES OF THREE SPECIAL KIWI

The remarkable Wildbase Hospital in Palmerston North provides expert care to our most precious animals. In this follow-up to the hugely successful *How to Mend a Kea*, author Janet Hunt focuses on the tales of three kiwis who have been treated there. The stories of Latitude, Raratoka and Piwi are fascinating and touching accounts of their different experiences, and the innovative approaches to their treatment and rehabilitation that were needed to ensure their eventual return to the wild. Linked to the wider issues of kiwi conservation, these tales introduce readers to the challenges and triumphs of caring for New Zealand's unique national icon. Wonderful photos, a lively text and an engaging design all combine to make this a superb and inspirational book.
